LOGISTICS UK

Apprenticeships and Leadership Diploma

Offered by Logistics UK

Introduction

As a specialist training provider, we offer an expanding portfolio of industry-focused apprenticeship programmes, ranging from Level 2 (equivalent to GCSE level) through to Level 5 (equivalent to a Foundation Degree or HND). These programmes support new entrants to the sector whilst helping employers build a strong pipeline of future supervisors, planners, technicians and leaders.

We can offer employers expert advice regarding apprenticeship funding and utilising the Growth and Skills Levy, a free recruitment service and bespoke apprenticeship programmes that meet business needs.

Apprenticeships

Level 2 Transport Coordinator

Our Level 2 Transport Coordinator programme is an ideal opportunity to upskill transport office staff in compliance, planning and maintenance requirements.

Duration: 8-12 months + 3 months Apprenticeship Assessments
Delivery: Fully remote

Level 3 Transport Operations Supervisor (Contains the Transport Manager CPC)

Our Level 3 Transport Operations Supervisor apprenticeship is a great opportunity to upskill the next generation of transport managers.

Duration: 8-13 months + 3 months Apprenticeship Assessments
Delivery: Fully remote

Level 3 Heavy Vehicle Service and Maintenance Technician

This programme is jointly delivered by industry professionals from Loughborough College Group and Logistics UK and is a crucial addition to our apprenticeship offering. It is tailored to equip future technicians with real-world skills and knowledge to support the logistics sector.

Duration: 36 months + 3 months Apprenticeship Assessments
Delivery: Block release at Loughborough College

Level 5 Operations Manager for Transport and Logistics*

Our Level 5 Operations Manager apprenticeship is a great opportunity for leaders to strengthen or develop their leaderships skills. Learners consider proven leadership models and theory covering strategic planning, change management, coaching and data driven decision making.

Duration: 19 months + 5 months Apprenticeship Assessments

Delivery: Fully remote
**Not funded by the Skills & Growth Levy*

Leadership Development Programme

Level 5 Diploma ILM Principles of Leadership and Management

The Level 5 Diploma ILM Principles of Leadership and Management provides an effective professional development route for aspiring and practising middle managers. The programme develops a strong understanding of leadership and management principles enabling learners to improve their management performance and organisational impact.

Learners will develop skills in financial decision-making, critical thinking, innovation, risk management, and data analysis, equipping them to make informed business decisions and lead teams effectively. This qualification supports career progression and prepares managers to contribute confidently to strategic and operational objectives.

Duration: 8-12 months

Delivery: 5 remote workshops, monthly one-to-one coaching and periodic assessments

Cost: £1995

Hear from our apprentices

Level 5 Operations Manager Apprentice For Transport and Logistics

"The apprenticeship has had the greatest impact on my day to day work by developing my skills to effectively manage training and ongoing professional development within a team. It has helped me better identify individual and collective development needs, plan and implement meaningful training opportunities and support continuous learning. As a result, I am more confident in driving both individual growth and overall team performance, while ensuring skills and knowledge remain current and aligned with operational needs.

My advice would be to be disciplined and allocate a sensible amount of time each week for studying and completing the assignments set. The more effort you put in, the more you will get out of the apprenticeship, and you will find that it genuinely helps you develop and grow in your role.

There are many resources readily available to support you throughout the apprenticeship. You also have access to a tutor who is available for guidance, and you can book one to one sessions whenever required to help you stay on track and get the most out of your learning."

Justin Readings, Gravity Media, Head of Fleet

Level 3 Transport Operations Supervisor Apprentice

"During my time as a Transport Operations Supervisor Apprentice, I underwent a challenging yet rewarding journey that connected the gap between classroom theory and the high-stakes reality of the supply chain. I discovered this opportunity while looking for a way to gain knowledge in the logistics industry, and our transport manager at Bethell steered me onto this path and I couldn't have asked for a better entry point. Throughout the programme, I learnt a variety of different topics such as fleet scheduling, inventory management and health and safety protocols. Beyond the technical skills, this qualification gave me a massive boost in confidence and problem-solving ability, teaching me how to think on my feet when logistics didn't go according to plan. I'm walking away not just with a certificate, but with a deep understanding of how vital every link in the warehouse chain is to the end consumer."

Josh Rand, Bethell Group PLC, Workshop Management apprentice

What our employers say about us

"Since starting the apprenticeship, Dominika has shown a clear improvement in her compliance capability. She consistently asks the right compliance questions, completes tasks with a high level of accuracy and attention to detail, and has become far more proactive in her approach. She is also increasingly confident in constructively challenging processes, which has added real value to the team.

The apprenticeship has had a really positive impact on our team, particularly in strengthening compliance awareness and capability. We've seen increased confidence, accuracy, and proactive thinking, which has directly benefited both day-to-day operations and overall compliance standards within the business."

Curtis Wright, Transport Manager, Samworth Brothers

"Partnering with Logistics UK has been an easy process, managed professionally with the learners needs at the heart of everything. The learners have felt that the courses have been centred around their needs, with flexibility and support at all stages. Logistics UK have given fantastic oversight to our business enabling myself to have meaningful dialogue with my learner and the ability to support them through each step of their journey."

Simon Jones, Head of Fleet, Novuna Vehicle Solutions

"It's an absolute pleasure supporting Geof on the L3 Transport Operations Supervisor Apprenticeship. His commitment to the course has been outstanding. He is also putting his learnings to good use and beginning to ask me some very challenging compliance questions! He has his MCQ exam on Friday, and we are fully behind him for a pass!"

Wismettac Harro Foods

"Since we enrolled Kacey onto the apprenticeship, we have seen a dramatic improvement in the level of knowledge and understanding of compliance and operations. You must support the apprentices in house and be prepared for this, however, the learning and outcomes outweigh the time you will have to put in. It has been a massive benefit to the business undertaking this apprenticeship."

Lawrence Setchell, Head of Transport, Prestige Pipelaying JV Ltd

"The apprenticeship has brought fresh perspectives and enhanced knowledge to the team; Joe applies his enhanced knowledge of transport compliance directly to his daily operations. His growing expertise has not only improved his own performance but has also raised standards across the team as he shares insights and best practices learned through his training."

Pam Roberts, Fleet Desk Manager, Europa Road LTD

Get in touch - start your journey with us

Whether you're looking to strengthen your existing workforce, attract new talent, or future proof your operations, our apprenticeship programmes are designed to support your goals. Our dedicated Apprenticeship Team are on hand to provide tailored guidance on funding and programme selection alongside advise and information on how to integrate new apprentices into your organisation or support the development of existing colleagues for maximum impact.

We know that every organisation operates differently, which is why we take a personalised and consultative approach. We work closely with you to understand your business needs, identify the right development pathways and ensure your apprentices gain the practical and professional skills required to contribute meaningfully from day one.

From onboarding support to regular progress updates and employer reviews, we are committed to ensuring a seamless experience that delivers long lasting value for your organisation.

If you're ready to explore how our apprenticeships can elevate your team, we would love to support you in taking the next step.
